

# Association of Energy Engineers New York Chapter

[www.aeeny.org](http://www.aeeny.org)

## October Meeting Announcement

- Topic:** “Must Have” Tools for Energy Efficiency
- Speaker:** Tom Sahagian, Manager of the Energy Division  
Power Concepts
- Where:** Cornell Cooperative Extension,  
16 East 34th Street, 8th floor
- When:** Tuesday, October 16, 5:30 p.m. - 8:00 p.m.  
Sandwiches, soda, networking 5:30-6:00

Reminder: \$15 for chapter members, \$20 for non-members  
*Chapter sessions generally carry Continuing Education Units. Certification at the meeting.*

We’ve entered a golden age of field measurement tools. Data loggers, power monitors and other instruments are more sophisticated and more affordable, and make it possible to gather far more real-world information, than ever before. This “show and tell” session will demonstrate the use of a wide range of tools that will be of interest to anyone who performs energy surveys.

### Our Speaker:

**Tom Sahagian** is Manager of the Energy Division at Power Concepts, a consulting engineering firm based in Manhattan. He has over 25 years of experience in multifamily, commercial and industrial energy efficiency and has spent far more time in boiler rooms and electrical closets than is healthy for most people.

### 2007-08 AEE-NY Advance Planning Calendar (Third Tuesdays)

November	District Energy Systems
January	Corporate Carbon Footprint Reduction
February	How NYC Gets 10%
March	Renewables
April	New Technology
May	Gizmos and Hoaxes
June	Annual Awards Gala

AEE-NY is pleased to present this program in cooperation with the  
**Environmental Business Association of New York and the EBA Energy Task Force**
